## Says WILL ROGERS

BEVERLY HILLS—Well, all I know is just what I read in the papers, or what I "contact" from hither to thither. I sure did hate missing that big Air Show in Chicago. I think that is becoming to be the one great show we will have. Just think how it will grow in importance when everybody really goes to traveling by air, and its coming all the time. They have some big 32 passenger ships out here between Los Angeles and Frisco and they are full all the time.

There is really something to see at one of those shows. You take Automobile shows and all you have to do is to go in the show rooms in every town and you see the same thing you can at a show, and they have them so perfected that about all that ever shows up new at a show is some new fangled cigar lighter, or odd shape door knobs. But at an air show there is hundreds of entirely different models than you had ever seen before. Then to see fellow like Al Williams, the great Ex-Naval Flyer (who they all say is one of the best in the world) and Jimmy Doolittle who can fly and land blind, only by using instruments and all the dozens of others. Now it's a real show.

You know I was reading about the big Military air show they held in England the other day, and they had a battle between an invading army of them, with the other side protesting the city, and with the speed and the altitude that the bombing planes can make now, they found that it was almost impossible to keep them away. That is if they didn't know they were coming. They say there has to be some way of detecting when they are coming so they can go up and be ready for em. As it is now by the time they leave the ground and get to an altitude of 18 and 20 thousand feet they have already dropped their bombs and gone. They have bombers now that travel 175 miles an hour.

While we were up at Lake Tahoe in the heart of the Sierra Nevada Mountains we would see the mail planes sometimes going over the mountains. They had to get a high altitude to make it, and there is not much chance of landing if the old Put But goes blue, and they do that both ways in the night. I tell you when you get an air mail letter from away out here, you just ought to stop and think what a chance a half dozen fine young men have taken with their lives to get you that letter there one two or three days earlier. Gosh that's a risky old game over these mountains at night.

Well let's see what other shows we had lately. Out our way for the last few weeks Almee and Ma McPherson have just about run the spotlight ragged. We can't get out if Almee really did swing on Ma or not. Then to make the argument better why the "Face lifting" entered into it. Ma said Almee had her face re-unpoldered. Almee said she didn't. Ma said that her (Ma's) nose was broken; Almee said she broke it, putting it in the church's business, and in the meantime the congregation never lost its faith. It was with em, nose or no nose, face or two-faced, it didn't matter. And speaking of Ma's why I haven't commended with you since Ma Ferguson was defeated for the nomination, and of course the election, for it was on the Democratic side, and Texas has about been cured of its last election's short sightedness. Democrats are coming back in the fold so fast and praying for forgiveness that it looks like a bargain, sale.

Well, this week takes care of pretty much the last of the primaries. This will throw thousands in every State back among the unemployed. Everybody is always asking if women voting has made any real change in our political system. It has. It has just doubled the amount of candidates. The only way we can possibly have more people seeking public pensions is to give the children the vote. We have done it for the wife, let's do it for the kiddies. Children have the same qualification for office the grown-ups have, they are out of work.

The Islam women in Jerusalem have asked their government to take their veils off and allow the bride and bridegroom to see each other before marriage. It won't do 'em any good. We don't use 'em over here, but you would think we did.

A big bootlegger in Seattle on trial spoke of some of the deals pulled off at last year's bootleggers' convention. There is one these chambers of commerce ought to go out for. The Elks of the Shriners or the American Bankers wouldn't be in it with that one. Imagine all railroads advertising excursions to the annual bootleggers' convention where they will give away samples.

Get busy, Claremore.

## 400 LUMBERMEN COMING TO GRAYLING

RETAILERS TO HOLD CONVENTION HERE SEPT. 20-21

Michigan Retail Lumbermen's association will hold a get-together meeting in Grayling Saturday and Sunday, September 20 and 21, according to T. P. Peterson, manager of Grayling Box Co.

It is anticipated that there will be about 400 persons present, including the members and wives. Plans are now being formulated for their entertainment. Efforts are being made to secure the Officers' club house at the Hanson State Military reservation as a place for holding their meetings and for serving a large banquet on Saturday evening. That place and the school gymnasium are about the only places in the community that are large enough to accommodate such a large gathering.

No doubt Mr. Peterson will welcome all the assistance offered in helping to entertain and care for the large number of delegates that are expected to be in attendance. As yet plans for entertainment are not yet completed.

## MERCHANTS TO JOIN FOR BIG SELLING PLAN

Red Arrow Club Reports "Million Dollar Haul"

"A million dollar haul" is reported. However this time the big haul was not made by gangsters or bank bandits but by the express company. The past week millions of dollars, bushels of money, have been received by the local Red Arrow Club members for distribution to their customers, who pay cash for merchandise, or pay their accounts promptly.

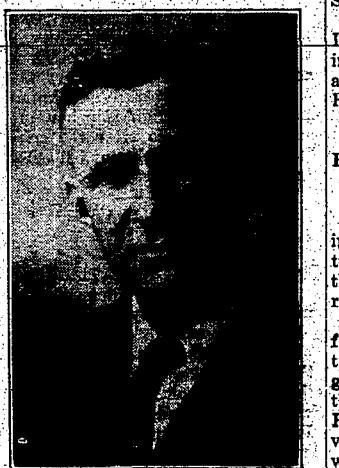

This is an entire year's program of co-operative merchandising, wherein Mr. and Mrs. Grayling and their families will share in the free distribution of approximately \$15,000 in merchandise and cash. The gold will be given only to churches, schools, lodges, or organizations.

In addition to the many surprises these merchants will hand out to the public, they say they plan to make it possible for everybody in Grayling and the surrounding trade territory to participate in a program of novel events for their amusement.

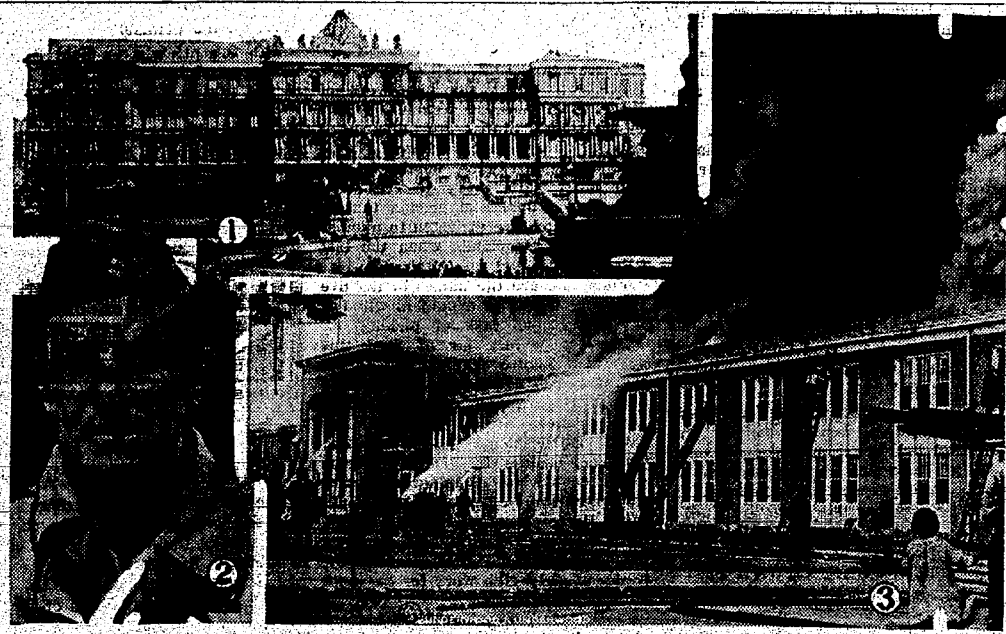

According to R. R. Minton, representing the Red Arrow Service company, the organizers of this program, Grayling can look forward to a stupendous program. The same big feature events will be presented here as are now being offered in cities much larger than Grayling.

The Red Arrow Service Company have made a thorough investigation, costing hundreds of dollars, as to the trade conditions in this city. It is their opinion that "Grayling today is second to none."

Details of the big Red Arrow program, the merchants participating and how it operates will be announced through the columns of the Avalanche in the very near future.

## Brucker Wins By Small Margin

## CARPENTER WINS FOR STATE SENATOR

BEN CARPENTER WINS STATE SENATOR NOMINATION

Insley Wins for Pros. Atty. Reagan for Register of Deeds, Milks for Clerk

Primary election had some quite unexpected upsets, and a number of close contests. Wilbur M. Brucker wins over Alex J. Groesbeck for nomination for governor. The race had been a hot one almost from the start. Brucker carried a majority over Groesbeck of nearly 85,000 in the state outside of Wayne county. There Mr. Groesbeck had amassed a majority of about 75,000. For some time Brucker's majority was in the vicinity of 45,000 but as later returns from Detroit came in the former governor gradually reduced Brucker's majority until it looked as tho the latter was going to lose the election. Carpenter headquarters at Harrison claimed Wednesday noon that Mr. Carpenter had carried eight out of the ten counties in the district for the office of State senator and no doubt was elected.

The story of how the people of Crawford county voted in the election appears in the accompanying tabulated report:

**Small Contest on Democratic Ticket**  
Only two contests appeared on the Democratic ticket that is of special interest to Crawford county voters, as follows:  
For Sheriff—James McDonnell 72  
Peter F. Jorgenson 26  
For Clerk—Frank Sales 47  
Axel Peterson 58

A number of names were written in on ballots but, as they are scattering and of no material effect, they do not appear in the tabulated report.

While William Ferguson, candidate for county treasurer, had no opposition in the primary election, to him goes the credit of having more votes than any other one candidate on the Republican ticket. He received 645 votes. Roy O. Woodruff for congress was next with 617 votes.

Mrs. Eva Reagan made a whirlwind campaign, running on slips, for the office of Register of Deeds, winning with a plurality of 48 votes. She was backed by a lot of her lady friends which helped materially in her nomination.

Eva Reagan was nominated for the office of Register of Deeds on both the Republican and Democratic tickets. It will be necessary for her to file a declaration as to which ticket she prefers to run, and to withdraw from the opposite ticket. That will leave a vacancy on the one ticket that may then be filled by the county committee of that political party if desired.

Pretty close shave between Brucker and Groesbeck for governor. Probably only about 5,000 difference.

C. J. McNamara and Harry W. Souders had a close run for the office of County Road commissioner—only 19 difference. "Mac" who was elected, is a capable business man and good executive. That is sometimes much more important than it is to know how to run a grader. We are confident that the people of the county are going to get a square deal from Mr. McNamara for in this matter he is "County Minded" and we don't believe will be influenced to do things just because someone or some community happens to want him to.

Hon. Chase S. Osborn was decisively defeated for the office of U. S. senator by James Couzens. Both good men for the office and those voting for Mr. Osborn have no reason to apologize.

## TO THE VOTERS:

I wish hereby to express my sincere appreciation for your confidence in me as shown by your vote of last Tuesday. I am very grateful and hope to continue to deserve your good will and that when election day comes that I again may have your support. Sincerely yours,  
WILBUR M. BRUCKER  
Republican Nominee for Governor

LYLE N. MILKS  
Candidate for County Clerk

## CRAP GAME GETS DARKIE INTO JAIL

DISPUTE OVER \$2.50 ENDS IN SHOOTING AFFAIR

James Fuller, 42, is in Mercy Hospital resulting from a bullet wound and Will Foster, about 35 years of age, is in jail awaiting trial in the next term of Circuit court just because of a quarrel arising in a crap game.

Fuller who is colored, resides on a farm near the Love school house on U. S. 27, about nine miles south of Grayling, known as the Millikin place. Last Sunday a group of colored friends gathered there for a picnic. It appears, according to stories told by the officers, that a quarrel arose between Fuller and one Mr. Gentry over a crap game. Whereupon it is said that Foster took a hand and said that if they were going to break up any home that he would do it himself, and is reported to have flourishing a revolver.

Fuller went outdoors, and Foster followed and according to reports the latter was heard to tell Fuller, poking the pistol barrel into his face, that "If he took a loud breath that he would shoot him." The men got into a jangle and it is said that Foster shot Fuller in the left shoulder, the bullet taking a downward course and lodging in his side near his left hip.

Fuller was rushed to Mercy Hospital while Foster was taken into custody by Sheriff Bobenmoyer. The latter waived examination in Justice court. Justice Peterson placed his bail at \$10,000 and, being unable to obtain bondsmen, he is in jail to await the next session of Circuit court, Oct. 14th.

## "OUR GANG" ELECTS OFFICERS

Our Gang met at the home of Mrs. Albert Knibbs on Sept. 4 with fifteen members and guests present. The afternoon was spent playing "cootie" and election of officers.

Mrs. John Wakeley won first prize for "cootie" and Mrs. Owen won consolation prize. The penny prize was won by Mrs. Paul Feldhauser.

Our Gang enrolled three new members: Mrs. Rudolph Feldhauser, Mrs. Paul Feldhauser and Mrs. Oliver Shoemaker.

The new officers for the next term are:

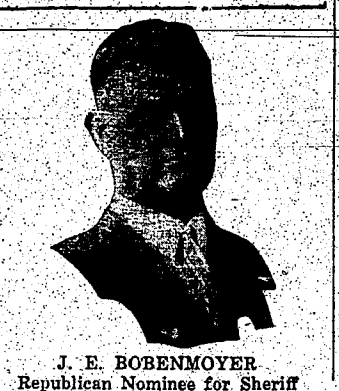

Pres.—Florence Wakeley.  
Sec.—Bonnie Wakeley.  
Treas.—Emma Knibbs.  
Press Correspondent—Yelma Barker.

The committee and hostess served a nice lunch. The Gang will meet at Mrs. Sherman Neal's on Sept. 18.

Our Gang met at the home of Mrs. John Erkes at Lake Margrethe on Aug. 21. There were twelve members and five guests present.

The afternoon was spent playing games and visiting. Mrs. Barton Wakeley won the contest prize and Mrs. Charles Corwin won the Penny prize.

The committee served a delicious lunch.

## Golf News

West Branch Golf club members, headed by Mr. T. Schultz, their star player, will invade Grayling next Sunday afternoon for a return match. Grayling carried away the honors at West Branch recently and we hope to continue the honors here at home.

Marius Hanson is feeling good over a 39 score that he shot Tuesday. Nice Work. Roy Milnes, too, turned in a 39 first of the week. That is very remarkable since this is Roy's first year of golf. Keep it up, Roy.

T. P. Peterson is one of the latest men to take up the game and we are sure he is going to find it quite as fascinating as trout fishing and other outdoor sports of which he is so fond. It is one of the pleasantest methods of keeping in good physical condition that we know of.

Mr. Daly, our club Pro, has started a new special course of lessons for ladies which should be very interesting and valuable.

Someone has suggested that a match between Mayor Chris Olsen and T. P. Peterson, both new players, be staged. It would create a lot of interest and we believe that both are good enough sports to take up the suggestion. Managers, please take notice.

Some nice improvements are being made on the course and the work is progressing well. Of course the fairways are brown and dry but that is quite in keeping with most golf courses all over the country this year. However that doesn't seem to lessen the pleasure of the games.

September is called the "Greatest Golf Month." Why not get out more often to enjoy it?

## THANKS THE VOTERS

I wish to thank the Democratic voters of Crawford County for their liberal votes at the Primary election Tuesday. I felt confident that I would receive your support and now am hoping that I may be accorded the support of the voters in general at the election November 4th. I deeply appreciate your loyal support of last Tuesday.

## Citizenship in Athens

### Looked Upon Seriously

In modern days the affairs of cities and states and nations are discussed and acted upon, not by all the citizens, but by a few representatives of these citizens, elected by them or chosen by a higher authority. These comparatively few legislators assemble at the designated place and act for the people they represent. But in ancient Athens it was somewhat different. All citizens were invited to join in the debates in the assembly halls and all citizens so invited had a right to vote directly for or against the laws that were discussed. And they listened to the great men as they talked about the measures up for a vote or the populace, such great ones as Themistocles, Pericles and Demosthenes, among the greatest orators the world has ever seen. And then they voted.

The Pnyx, as this place of assembly was called, is partly in ruins now, but some of it is still to be seen on a hill across from the Acropolis of Athens. The speakers' platform, with its three steps, is immediately in the foreground of the picture. The listening Athenian citizens sat on the ground, now sloping away to the left, but at that time probably level. The ground they occupied was enclosed by a circular wall. This was an open-air "congress," and a lively place at times, particularly when some important question was up for debate.

Two other famous buildings, the Acropolis and the Parthenon, are just to the left of the Pnyx across a slight depression and on the neighboring hill overlooking the modern city of Athens.

## Provincetown Not the

### Oldest Cape Cod Town

Provincetown, because of the fact that the Pilgrim Fathers stayed there while they were looking for the right site for their colony, has sometimes been regarded as the oldest of the many famous towns on Cape Cod. But properly that honor belongs to Sandwich. The first permanent settlers at Provincetown came in the neighborhood of 1630, but Sandwich was founded in 1637.

Sandwich, like Boston, was an intolerant town in the early days. "We worry a good deal over intolerance in our own era, but it is well to be reminded that tolerance has always been a rare virtue. The first settlers passed a law that no other families could come to live in the town until they had secured the permission of the minister and the church authorities.—Exchange.

## "Man on Horseback"

The phrase "Man on Horseback" was first applied to Gen. George Ernest Boulanger, of France (1837-1931), a politician who sought popularity in the most pronounced fashion, one of his methods being to appear in public on his black horse. It is commonly applied to any military dictator or a person who curbs the violence of mob-rule to re-establish law and order. The same expression or a similar one, "Roberespierre on Horseback," was said to have been previously used by Barras in speaking of Napoleon Bonaparte. In this sense it was used to denote any ruthless leader that would willingly trample the people under foot, if such proceeding would further his own selfish ends.

## Necessity, Not Virtue

"Patience," said Mr. H. H. the sage of Chinatown, "may be less a virtue than a necessity. He who has nothing else must have patience."—Washington Star.

## "Hail Columbia" Written

### as Offering to Friend

Just to oblige an insistent friend, a Philadelphia judge back in 1793 spent part of one week-end composing a patriotic song which he thought would sink back into obscurity within a week or two.

And the result was one of America's greatest national airs—"Hail Columbia."

The composer was Joseph Hopkinson, who was widely known for his artistic, musical and literary tastes. It was in the middle of the summer of 1793 that a young actor, Gilbert Fox, for whom the benefit was to be given, went to Hopkinson's home at 338 Spruce street. He explained that there was little prospect of attracting a crowd and asked his friend to help him out.

That was Saturday. The performance was to be on Monday. And early that morning "Hail Columbia" had been completed.

Fox sang the song, accompanied by a full band and a "grand chorus." Crowds sang it on the streets as they left the theater. And a short time later Hopkinson wrote to George Washington:

"The theaters here and in New York have resounded with it night after night and men and boys sing it wherever they go."—Kansas City Times.

## Sabbath Not Always

### Sabbath for the Jews

The period from sunset Friday to sunset Saturday was adopted by the Jews as their Sabbath about 380 A. D. It is erroneous to suppose, as many do, that the ancient Jewish Sabbath always fell on what corresponds to our Saturday and that the weekly cycle has never been broken. In ancient times the first day of the Jewish year was also the first Sabbath of the year and the day was determined by the high priests or the sanhedrin by observing the new moon. A Sabbath followed every seventh day thereafter until the end of the year. Consequently the Sabbath was not a regularly recurring seventh day in the sense that our Saturday or Sunday is, and the Sabbath did not fall on the day corresponding to our Saturday more often than it fell on other days of the week. At that time, of course, all the days began and ended at sunset. The Jews, after being scattered over the world, found the ancient Hebrew calendar difficult to follow, and about 380 A. D. under the leadership of Hillel II they began to adopt Saturday as their regular Sabbath. Pathfinder Magazine.

## Gulls Which Keep to Shore

The black-head gulls of Europe, unlike the ordinary seagulls common along the coast of this country, are not sea-going birds. They will not follow ships day after day, but keep themselves well within reach of land. In fact, they are not adverse to flying inland and feeding in new-plowed land, on insects, worms and larvae.

The gulls breed from the British Isles east through Europe, as far as Turkistan. In winter they range all the way from the Azores to Japan, living largely along the shores, on crustaceans, small fish and any food which finds its way into the waters along the shores.

## America's First Booster

America's first booster, strangely enough, was a Boston man—William Blackstone. After Gov. John Winthrop had settled his colonists at Charleston on one side of the Charles river, Blackstone crossed over and explained the advantages of the opposite bank (where he had a farm!) in such glowing terms that the whole colony moved over and founded Boston. From that day to this—when Massachusetts is celebrating her tercentenary—"Boston has never felt the need of another booster," says Hildegrade Hawthorne, granddaughter of Nathaniel Hawthorne, in a special tercentenary article in St. Nicholas Magazine.

## Catching Up With Bullets

If a shotgun is fired directly ahead of an airplane, within a few seconds the plane will run right into the shot, declares Gen. William Mitchell (in "Skyways"). This is because the shot has an initial velocity of 900 feet a second, which falls off very rapidly, until at 80 yards it has only about 400 feet velocity left, and at 100 yards it has none. An airplane going 100 miles an hour covers 100 yards in two seconds, which does not give the shot time to drop.

## REJUVENATED MAN OUT FOR WHOOPEE

### Admits Stealing to Follow Primrose Path.

New York.—Speaking of operations, have you heard what science did for, or to, George Frederick Williams?

For 30 years Williams had been a messenger. For 30 years he had earned about \$30 a week. He lived soberly, steadily, brought up a son and daughter and spent all his evenings in the bosom of his family.

Then Williams fell ill. He was operated upon last January. Then things began to happen to the staid old messenger.

Williams stepped out to find out what it was all about. With him he took the \$2,200 pay roll of the Sterling Watch company, for whom he had worked five years.

He went to Norfolk. A pretty blond barber shop manicurist also felt the urge. They went to Washington, D. C., to Greensborough, S. C., to Chicago.

"That operation did it all. It changed my attitude toward life. I wanted to get out and raise hell. But it didn't last. The mad feeling began to wear off."

Williams returned, got forgiveness from his wife, went to Detroit and surrendered. In general sessions court, Judge Donnellan sentenced him to from one to two years in prison.

## "Lost" Yellow Lily Found, Now Being Grown Here

St. Louis.—A dozen little sprouts in the bottom of a milk bottle have assured botanists at the Missouri Botanical garden here that the "lost yellow lily" will be lost no more.

The flower, which blossomed here for the first time in civilization and then only after a 12-year search, can be perpetuated, botanists learned, when the sprouts germinated from the blossomed lily appeared.

The lily which blossomed here grew from seeds obtained in Africa after an expedition visited that continent in search of the flower. Botanists then expressed fear that the plant could not be perpetuated.

Forty years ago was the first time botanists had evidence of the existence of the flower, when a scientist sent a dried specimen to Germany. Since then the flower has been entirely unknown to civilization.

## Ruins of Doric Temple

### Unearthed in Himera

Palermo, Italy.—The remains of a fine Doric temple have been brought to light at Himera, near Termini Imerese. Archaeologists declare the temple was built by Greeks or by Greek colonists shortly after the year 490 B. C., after the victory of the Sicilians against the Carthaginians. In its original form the Himera temple probably was a fine example of Doric architecture, for even its ruins are noble and inspiring. The temple had a brief life, being destroyed. It is thought, by the Carthaginians only 70 years after its completion.

It is supported on a rectangular basement about seven feet high, on which the columns rest. About half of the columns remain, the others having been razed by the Carthaginians.

## Weds Same Man Four

### Times in Six Months

Jersey City, N. J.—Four times within the last six months pretty Mrs. Martha Leneper Triebel, twenty-one years old, of this city, has wed the same man.

She began her marrying career last January 19 when she eloped from her home, at Woodcliff, N. J., to become the bride of Ernest Triebel of Brooklyn, N. Y. A month later, at the bride's request, the minister repeated the ceremony.

Some weeks later she decided it might be an even greater thrill to be married in some distant city, so the pair got "spliced" again in New Haven, Conn. Recently they sampled the type of ceremony performed in New York city's municipal chapel.

## Prisoners' Ghosts Still

### Haunt Alaskan Islands

Juneau.—The recent suggestion of Commissioner Mulrooney of the New York police to establish a penal colony in interior Alaska recalls here a similar convict camp kept by Russians, nearly 100 years ago, on Chirikoff Island, 100 miles west of Seward. Iron chains still attached to trees bear mute witness of the method of manhandling the unfortunates.

Trappers declare they have seen at night the gray ghosts of the penal colony fighting among each other while the chains of their leg irons clanked plainly.

Several convict camps were located on the Aleutian Islands, where chains and prison equipment have been found.

## CONTEST TO PICK BEST HOME CANNER

### Every Woman and Girl in U. S. May Enter Lists.

Shenandoah, Iowa.—What constitutes a perfect jar of home canned food?

This is the question which five of America's outstanding home economists and food authorities will have to answer when the national canning contest comes to a close here on October 1.

Entries in the national canning contest, representing the handwork of thousands of women from every part of the United States, are piling up at contest headquarters here. These gleaming quart jars, neatly labeled and filled with every harvest crop of orchard, field and garden that is used for food, are expected to number many more thousands when the last entry is accepted on October 1.

Following are the names of the five judges upon whose shoulders will fall the momentous task of picking out America's perfect jar of food this year: Dr. Louise Stanley, director of the bureau of home economics, United States Department of Agriculture; Miss Frances Swain, president, National Home Economics association, Chicago; George E. Farrell, director of extension for the north central states for the Department of Agriculture; Mrs. Josephine Arnsperg Calkins, in charge of girls' club work for Iowa State college, and Miss Elaine Massey, leader of girls' club work for the state of Mississippi.

## To Boost Home Canned Foods.

and healthfulness of home canned foods. Henry Field, Shenandoah farmer, merchant and KFNW announcer, is president of the contest.

First prize winner in the contest last year was Mrs. Mary Hyass, Kennan (Wia.) farm woman, whose entry of a quart jar of green peas was chosen as the best entered by the girls and women from all sections of the country.

Four hundred and seventy prizes, totaling \$4,200 in cash, loving cups and ribbons, will be distributed to the winners in the contest, which comprises three major divisions, fruits, vegetables and meats. The best entry in each division will be awarded \$100. One of these will also receive the \$500 sweepstakes prize. Second prize in each division will be \$50, the third prize \$25, and the fourth prize \$10. The winners will also receive a loving cup and ribbon. There will also be 30 prizes of \$5 each, 75 prizes of \$2.50 each and 300 prizes of \$1.00 each. In addition, \$500 in cash will be awarded to the home demonstration agent whose county sends in the largest number of entries, \$250 to the agent whose county sends in the next largest number, and \$100 to the agent of the county sending in the third largest number.

## Open to Women and Girls.

The contest is open to every woman and girl in the United States. There are no restrictions as to the nature of the food sent. Contestants may enter one, two or all three divisions. Entries should be sent in as soon as possible after canning. These will be placed and kept on exhibition at Shenandoah until after the closing of the contest.

That the judging may be thoroughly impartial and the display of jars absolutely uniform, contestants are required to submit their entries in standard glass jars of the quart size. A sample jar and carton together with prize entry labels for use in sending entries may be had without cost by writing the National Canning Contest, Shenandoah, Iowa.

Contestants are free to use any method of canning they prefer, according to Grace Viall Gray, nationally known canning expert and secretary of the contest.

## Own Bell Told for Grant

Wilton, N. Y.—The locomotive bell which pealed out mournfully as the body of General Grant was borne from Mt. McGregor, Saratoga county, to New York city, is now owned by Frank Meyers and his brothers, farmers. General Grant had gone to the mountains in effort to recuperate from the ravages of cancer in his throat, from which he died.

## A GREAT (?) EVENT IN HISTORY

The chronologist who arranged the calendar for August, giving the day and year of the various great events in history for that month, among which were: birth of Goethe, Germany's greatest poet; birth of Francis Scott Key, author of "The Star Spangled Banner"; Great Britain's declaration of war on Germany; surrender of Manila to the American army; siege of Charleston and beginning of the Civil War; battle of Bull Run; birth of David Crockett, frontiersman; birth of Orville Wright, aviator-inventor—must have been afflicted with a bad case of "brainstorm" when he listed as the great historical event for August 22, 1927, the fact that "LITA GREY SECURED DIVORCE FROM CHARLES CHAPLIN."

## A PECK OF DIRT

In this day of ultra sanitation, with its national state, district and local health boards, and universal warfare against microbes of every description, the writer was surprised to see en route from Michigan's capital to a smaller city a truckload of sandwich bread with the loaves protruding about half their length from the cartons in which they had been placed, with the wax paper flying in the wind produced by the forty-mile gale of the truck, and clouds of dust from roadside and fields settling down upon the exposed surface of the staff of life. There is an old saying that everyone must eat a peck of dirt in his lifetime, but there is a dislike to taking it all at one dose.

## TWO EGG SANDWICHES AND A HUNGRY MAN

He accosted me as I sat waiting for the belated bus from Chicago to bear me back towards Grayling, and there were tears in his eyes as he importuned me for a dime or two to get him a cup of coffee and a sandwich, stating that he had nothing eat since the morning of the previous day and was almost famished. After a week-end holiday I seldom have more lute than enough to bring me back to my destination, but I am always willing to do what I can for one who is suffering from the pangs of hunger—so I took him in to the restaurant in front of which I had been sitting, and told him to order whatever he wanted. After hesitating for a moment or two he said a couple of egg sandwiches and a cup of coffee would be sufficient. I paid the waitress and stepped outside to watch for the bus. About five minutes later the "hungry man" hurriedly brushed by me at the door without noticing my presence. He held the two egg sandwiches, wrapped in wax paper, in his left hand extended at arm's length, and a cup of hot coffee in the other, taking one or two sips of the beverage as he hurriedly walked south on Main street. After going about a block he as hurriedly returned and went into the restaurant again, still holding the sandwiches at arm's length. Then a moment later he came out, having left the coffee behind, but still holding the egg sandwiches, and attracted considerable attention as he ambled along through the main business section. I watched him till he was out of sight, and he had not brought the sandwiches any nearer to his mouth than arm's length. Then the lady proprietor of the restaurant came to the door and looked up and down the street, and upon my inquiring who she was looking for, said she wanted to see which way that man with the sandwiches went, as he had asked the waitress to give him the money in lieu of the sandwiches—stating he was in a big hurry and could not wait for them. Upon her refusal to do so, when she brought the order in he grabbed the food and the coffee and started out with a rush, evidently to show that he really was in a hurry. Then when he came back he handed the proprietor to take the sandwiches and give him the cash as he really wasn't hungry, but the proprietor was obstinate, so he left the place still carrying them. Well, The Space Filler got a quarter's worth of amusement out of it anyhow, but it was a shame to see two perfectly good egg sandwiches go to waste when there are so many poor chaps really hungry.

## GOODYEAR BUILDING TWO DIRIGIBLES FOR NAVY

The Goodyear Tire and Rubber Company of Akron, Ohio, have contracts for the building of two large rigid airships for the Navy at a cost of \$7,825,000. The first ship the ZRS-4 now under construction at Akron will be ready for service about July 1, 1931. The second one the ZRS-5 is not to be started until the first has been delivered and accepted. Under the terms of the contract the Secretary of the Navy can cancel at his discretion the building of the second dirigible in which case the cost of the first dirigible will be \$5,875,000.—Navy News.

## GIVING THE CRIMINAL A GREAT ADVANTAGE

"The professional criminal will always get his gun, by theft, through a 'fence' or from a 'gun bootlegger' regardless of any legislation," says Captain Charles L. Gilman, in commenting on a proposed anti-revolver law. "In all, it appears to the writer that the possible public benefit from police selection of those who can purchase arms is so slight and the advantage accruing to the crook from the restriction of arms in the homes and in the cars of law-abiding citizens is so obviously great as to cast doubt upon the desirability of the proposed ordinance."

The anti-gun agitators fall into the error of believing that the passage of a law is directly followed by its enforcement. Our experience with other kinds of restrictive legislation shows that this is far from the truth. An anti-revolver law would be no exception to the general rule; it would be obeyed by good citizens and laughed at by the underworld. It would amount, in effect, to protection for the criminal. Crime has become a major issue largely because of the activities of reformers who have been unable to separate fact from fancy. Every new breed of new crimes—What America needs is a campaign of crime suppression that will go after the criminals and leave the rights and liberties of law-abiding citizens alone.

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES  
OF THE AVALANCHE OF 23 YEARS AGO.

Thursday, September 12, 1907

Circuit Court and a rush of work has crippled our local columns this week, and our county correspondents are nearly all delinquent.

H. H. Woodruff, of Roscommon, Mr. Ross of West Branch, and Ward B. Connine, Pros. Atty. of Osceola County, were the only foreign attorneys attending this term of court here. Mr. Connine will be remembered here as a son of Judge M. J. Connine. This was his first visit here for ten years and he was greatly surprised at the improvements which met him on every side.

Miss Florence Tromble went to Detroit yesterday where she will take a position as nurse in St. Mary's hospital.

Miss Bessie Light, who has been visiting her sister, Mrs. Oliver Ralph, and friends in this city, returned to her home in East Jordan last week.

It is reported that the jury in the McKinley and Brown robbery case stood for a long time, eleven to one for conviction, and at no time was less than nine to three.

Miss Julia Michelson who has been spending her vacation in Grayling, visiting her parents, relatives and friends, has returned to Lansing to resume her studies.

Mr. and Mrs. E. N. Salling arrived here yesterday for one of their semi-occasional visits, the return of Mr. and Mrs. R. Hanson from Europe hastening their coming at this time.

John Mason caught a flying piece of plank from the edger in the big mill last week. It cut an ugly gash across the cheek and knocked him out of the ring, worse than a defeated prize fighter.

Blackberries are being gathered by the wagon load. It would make an artist's soul grow glad to get a snap-shot at some of the feminine parties in the brush, as they are engaged in trousers and rubber boots. Nelsons load of Monday is said to have won the cake.

The Douglas Co., of Lovells, have the frame up for a new barn. Business is expanding.

### Circuit Court

The September term of the Circuit Court convened Monday, Judge Sharpe presiding and stenographer Austin at his desk.

The first case called was, The People vs. Joseph Watts, charged with assault with intent to commit the crime of murder.

Mr. Ross of West Branch, appeared for the defendant. A verdict was rendered for the lesser crime of assault and battery, and sentence was suspended until the first day of the January term.

### THE WHY AND THE WHEREFORE

The following message to the Evansville Morris Plan Co., is signed "Hersieah Tompkins."

"I beg leave to inform you that the present shattered condition of my bank account makes it impossible for me to send you a check in response to your request for a remittance on my Morris Plan loan."

The state of my present financial condition is due to the effects of Federal laws, State laws, County laws, By-laws, brother-in-laws, mother-in-law, and out-laws, that have been foisted upon an unsuspecting public. Through these various laws I have been held up, walked on, sat on, laid-bagged, battered and squeezed until I do not know where I am, what I am, or why I am.

These laws compel me to pay a merchant tax, capital stock tax, excess profit tax, income tax, state auto tax, city auto tax, gas tax, light tax, road tax, amusement tax, cigar tax, cigarette tax, street tax, real tax, school tax, surtax and carpet tax.

In addition to paying these taxes I am requested and required to contribute to every society and organization that the inventive mind of men can organize. To the society of John the Baptist, the Women's Relief, the Navy League, the Children's Home Fund, the Policemen's Benefit, the Doreans Society, the YMCA, YWCA, the Boy Scouts, the Jewish Relief, the Belgium Relief, the Near East Relief, the Gold Digger's Home. Also to every dog, cat and human hospital and every charitable organization in town, the Red Cross, the Black Cross, the Purple Cross and the Double Cross.

The government has so governed my business that I know not who owns it. I am suspected, excepted, inspected, disrespected, examined, re-examined, informed, required, commanded, expelled and compelled until all I know is that I am supposed to provide an inexhaustible supply of money for every known need, desire or hope of the human race, and because I refuse to donate all I have and go out and beg, borrow and steal more money to give away, I am cursed, discussed, boycotted, talked to, talked about, lied to, lied about, held up, held down and

Great German Airman  
Big City Corruption  
"Kaiser" in Background  
Weapon Against Reds

A fine young man in Capt. Wolfgang von Gronau, who came from Germany via Iceland, Greenland and Halifax, more than 4,000 miles, in forty-seven hours of flying time, stopping on the way for fuel.

He will live to make that and longer flights in one "hop," and to cross the ocean in 20 hours.

Animals die out. Flyers of our army and navy welcome a Gronau who only a few years ago had his mind concentrated on bombing our ships, and those of our allies.

He tells interesting, simple stories of his experience in the war and the various occasions on which he and his airplane were "shot down."

He ought to meet our crack American war flyer, Capt. Eddie Mickan-backer, who brought down more German planes than any other American. Perhaps he was one of those that had the honor of bringing down the great Gotha.

After the war Von Gronau went back to farming on his estate in Pomerania, and then started a flying school. He now over here to give one of his pupils a really good lesson.

Mayor Walker, head of the biggest, richest city in the world, invites approximately 100 conspicuous citizens to discuss privately conditions of graft, bribery, etc.

The mayor is in earnest and has every reason to be. But 100 or 100,000 "leading citizens" could not deal with graft, bribery and crime while bootlegging and its allied trades take in yearly a bigger income than that of the United States government.

Most startling in the revelations of New York corruption, which include purchasing of public officials, magistrates, judges, etc., is the statement that one judge paid \$200,000 for his seat on the bench.

The amount would be about \$5,000 more than the total salary that he would earn in his fourteen-year term.

This means that some one else supplied the \$200,000, and common sense indicates that the "somebody else" must have been a boss criminal, able, with the aid of a judge "owned by him," to get back his \$200,000, with interest.

It is a strange picture of American civilization and "good government" in the year of our Lord 1930 and the eleventh year of the era of prohibition and bootlegging.

Mr. Gerard, former ambassador to Germany, adds five to his list of men that rule the United States, increasing the 50 to 55. He adds S. Z. Mitchell, president Electric Bond & Share company; Walter Edwin Fraw, head of the Corn Exchange Bank Trust company; Amleto P. Giannini, powerful Italian banker; William Green, head of the American Federation of Labor; and Matthew Woll, another union man, to his list of 50, making 55.

Somewhere in the background stands some individual not named, perhaps the ablest among corporation lawyers, who has more influence than the 54 put together, because he tells them what to think and what they can do.

You will notice in his list of 54 that "govern the United States" Mr. Gerard still includes as President, Vice President, senator, governor—not one person elected by the people. They must be bad choices.

Mr. Lehman, lieutenant governor of New York, rich and intelligent, talks of some of the prosperous class that the best weapon against Communism and radicalism generally is high wages, "leading to prosperity, happiness, self-respect and pride in home and country."

Mr. Lehman is right. All the alleged Russian propaganda multiplied by a thousand could not create as many dissatisfied "radicals" in this country as a year or two of depression followed by a foolish attempt to reduce wages.

Out sixty billions a year in wages to forty billions and you would cut down prosperity by much more than twenty billions a year. It is the amount paid in wages above the bare cost of existence that creates prosperity.

There comes a dreadful surprise after all our efforts to be good, helped by the Anti-Saloon league, Y. W. C. A. and so many other "virtue" organizations.

Dr. Eugene Layman, flesh specialist in health and vice president of the Life Extension Institute, calls for Europe leaving this message: "Man has three outlets for his energies—sexual, intellectual, love and work."

And, says Doctor Fisk, "It is not a bad idea to mix the three about equally."

To be too good, according to this observer, puts too much of a strain on man's nature. He quotes a philosopher who says that a wave of barbarism sweeping over civilization every 500 years is a good thing, as it wipes out "complexes."

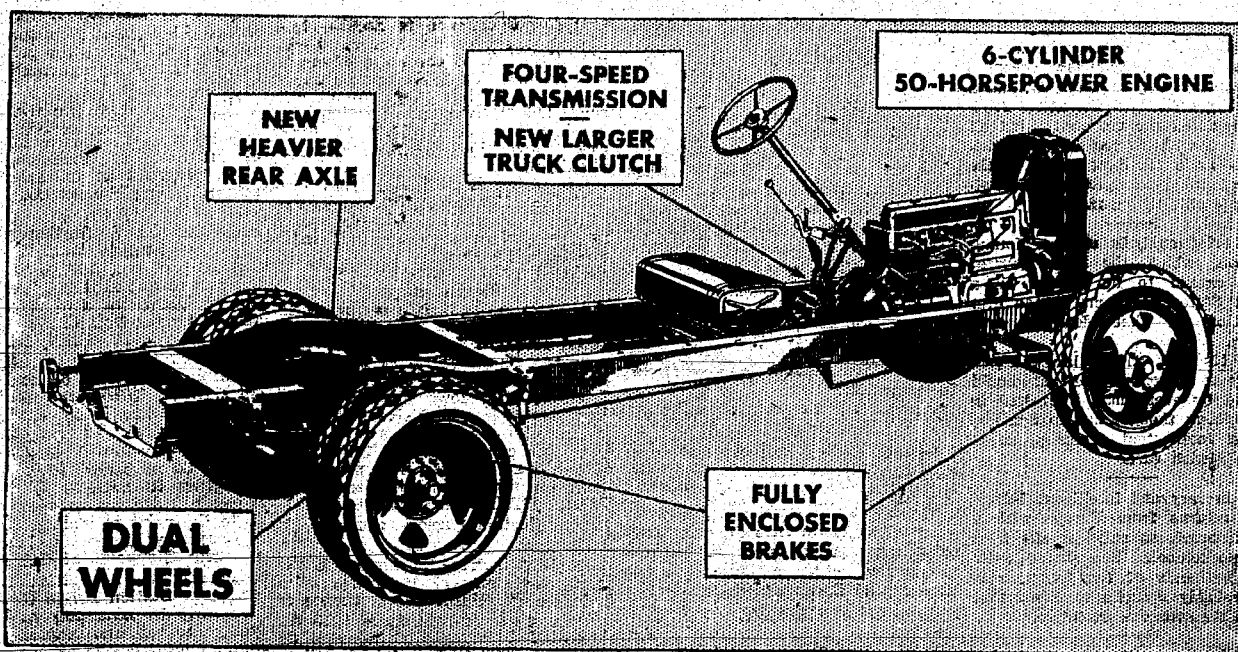

This will shake those who, with strength of will, have practiced vegetarianism, teetotalism, asceticism and other such things.

Months Ago to France. The Fifth Avenue hotel in New York city contained the first elevator in 1857. This legend is collected by a history of which the price of Wales was estimated in 1888.

Or Commonly. A novelist admits that an extravagant girl usually makes a poor mother. First, however, she makes a poor husband.—South Bend News-Times

### "KONJOLA SAVED MY LIFE," SAYS HAPPY LADY

Constipation and Extreme Nervousness Soon Banished By Power Of New Medicine

MRS. MARGARET HAYNES

"Konjola saved my life for I was a nervous wreck," said Mrs. Margaret Haynes, 2724 Fourth street, Detroit. "I could not bear to talk to people and, often, at meal time, I left the table rather than hear people talking. I did not sleep well and lost weight rapidly. No medicine I tried appeared to help me until I began taking Konjola."

"This great medicine helped me from the beginning. My nerves became calmer and my appetite is good. Constipation which had bothered me so long, is now a thing of the past. It required but four bottles to bring about this amazing change in my health. I cannot say enough in praise of it and I have all my friends taking it."

Konjola is a compound of 32 ingredients, 22 of which are the juices of roots and herbs of known medicinal value. It attacks the source of ailments of the stomach, liver, kidneys and bowels, and rheumatism, neuritis and nervousness.

Konjola is sold in Grayling, Michigan at the Mac & Gidley drug store and by all the best druggists in all towns throughout this entire section.

### OIL INDUSTRY MOVING SLOWLY

Although Michigan's oil industry is moving but slowly, with low prices and light demands for the product, three new fields are in the process of opening up.

The most developed of these three fields is five miles north of Mt. Pleasant where the first well of any consequence came through early in June with a production of 500 barrels the first twenty-four hours. There was some exploitation of the same field late last fall but little was done until last spring.

Since the opening of the big well, 15 to 18 more wells have been started. At least two of these have come in, one of which is producing 180 barrels and the other 125 barrels a day.

The second new field in which work is now being carried on is four miles south of Clare in Vernon township. One well drilled early this year is now producing 50 to 60 barrels a day. Five more wells are now being drilled in this vicinity. One struck gas a week ago at 1,324 feet, a fact that is considered as a fair indication that oil will be found at the lower levels.

With the striking of gas in the western side of Isabella County, prospects are that the city of Mt. Pleasant will soon be supplied with natural gas. A pipe line is now being laid from the wells to the city.

So far two wells have been completed, one which is producing about 10,000,000 feet of gas a day and one which is producing about 2,500,000 feet of gas a day. Gas was struck at 1,320 feet.

### Sable Most Highly Prized

The sable is the most valuable of all furs. It is soft and silken, deep brown, often slightly silvered. It is found only in Siberia. Japanese and Chinese sable, local varieties of less value, are usually dyed or topped.

### Sweetness in Cornucopia

It has been asserted that this nation's entire sugar supply could be obtained from the cornucopia on American farms if the commercial process can be developed in keeping with laboratory experiments. The new compound is 300 times as sweet as sugar.

We Amuse Costs  
Sir Frederick Pollock  
Miss Hurst's Marmoset  
To Help Business, Spend

Costs, peerless French flyer, "hop-ping" from New York to Dallas, Texas, 1,700 miles, for a special price of \$25,000, says on arrival: "Pout, pout! That was nothing."

He made it in less than 12 hours.

He says also, writing to Mr. Adolph S. Ochs, that the next time he flies he will take an American with him, because "we find you very amusing, you Americans."

Some Americans that go to Paris and the French "very amusing," which makes the account even.

Sir Frederick Pollock, a great authority on international law, accepted an honorary degree from Columbia University. The presence of Sir Frederick honored the university, and all connected with it, for Sir Frederick Pollock is in the best sense of the word a learned man, possessing knowledge and able to impart it.

His brief analysis of the Monroe Doctrine, which the late Senator Lodge gave, is printed as a United States document, is the best exposition of that doctrine ever written.

And his book on the life and philosophy of Spinoza is one that should be read by every man interested in philosophical thought and in Spinoza, greatest intellectual genius produced by the Jewish race.

The literary and intelligent Fannie Hurst returns from Europe with a pet marmoset, so small it sits in a large pocketbook. She should write about husbands of the future, who will probably divide to about that size, in the course of evolution.

The giant sea crab, when you catch one, is always a female, of great size. She carries the male crab, about as big as a ten-cent piece, under one of her flippers, except on rare occasions. Human husbands may divide down to that, when men have no harder work to do than pushing a button. Size and muscle will no longer count.

But woman will remain of full size, because of her maternal duties, for other reasons. The female spider is ten times as big as her husband, and eats him after marriage. Human husbands should not complain.

T. F. Wallace, head of the National Association of Savings Banks, sees the end of the slump, because savings deposits increased \$225,000,000. Savings shows strength of mind, but the end of the slump might be still nearer if those that put the \$225,000,000 extra into savings banks had put it into circulation, buying merchandise.

What people spend makes prosperity. What they save makes them safe.

One thousand are dead in Santo Domingo, 3,000 hurt, 30,000 homeless, in latest reports. Of 10,000 buildings, only 400 are left standing.

It will take a great deal more than the \$20,000 sent by the American Red Cross to provide for that situation.

After a great war important changes occur in government and "social systems."

One hundred and sixteen British bankers and manufacturers implore Great Britain to stick to and maintain trade and not be stamped into protection and retaliation.

Another group of bankers had urged "free trade within the empire, protection against outside competition."

German statisticians apply grim and correct figures about the great war. It has taken years to prepare them. Ten million soldiers were killed, 30,000 unknown French soldiers lie in one grave.

"The horses killed numbered 9,586, 000—they didn't start the war."

Eighteen million human beings were wounded, and \$247,000,000,000 were spent, wasted.

"And that is what the world is paying for now in its slump, undoubtedly."

Australians and others are impressed by old Solomon, an old aboriginal Australian with doctor, who predicted "drenching rains to end the drought in the first quarter of the moon."

The drenching rains came, crops were saved, Solomon is a hero, and the weather bureau which saw no rain coming is made ridiculous.

The public eager to be deceived, hears and cares nothing about the 10,000 which doctors and other prophets that in the same week predicted things that did not and will not happen.

Gold and treasure, the words that excite nearly all men.

Italian divers clad in iron, going down 400 feet to the bottom of the Atlantic, and up again as rapidly as swift elevators in our skyscrapers, have discovered the British treasure ship Egypt with \$5,000,000 of gold and silver in her hold, lying on the gray sand on the ocean's floor.

Eighteen go-called "terrorists" all Yugoslavians, are on trial at Trieste, and one confessed a plot to murder Mussolini.

Italy doesn't pamper prisoners. Each defendant is kept in a steel cage, taken out only for examination.

Acres of Boiling Lava

Except for occasional flows over the floor of the main pit, visible activity of the lava lake of Kilauea has, for several decades, been confined to an oval inner pit, Halemauau, 2,000 by 3,500 feet across and 1,300 feet deep. In 1924, just before the last drop-out, in 1924, the lake of boiling lava covered about 50 acres and when the lava filled the present enlarged crater it will cover about 100 acres.

Charles N. Hill, former member of Grayling High school faculty, spent a couple of days the first of the week visiting Grayling friends. He spent the summer as social director at a Y.M.C.A. camp at Detroit. Next week he will enter Detroit City college and work for an A. B. degree. A young man of the principles and ideals of Charles is certain to give a good account of himself in a few years.

Of interest to the friends of Mrs. Ollie MacLeod will be the announcement of her marriage on Saturday, August 30th, to Mr. William E. Hathaway of Lansing. The young couple will reside in that city, where both have positions with the Michigan Central R. R. Co. The young couple spent the week end in Grayling visiting the bride's mother, Mrs. Anna Hermann and family. Congratulations.

Mrs. George Barber was hostess to her club at her home Thursday afternoon. There were nine members present and four guests. The Club presented Mrs. LeRoy Scott and Mrs. Herbert Stephan with lovely birthday gifts for the month of August and Mrs. George Barber and Mrs. Richard Thompson received lovely birthday gifts, their birthdays being Sept. 2nd and 3rd. The Club also elected new officers. President, Mrs. Neal McDaniels; and Secretary, Treasurer, Mrs. LeRoy Scott. The ladies renamed their club "The Birthday Club." Mrs. Neal McDaniels won the Penny prize. Two other prizes going to Mrs. Irwin MacInnis and Mrs. Emory Craft. The Club will meet with Mrs. LeRoy Scott at her home Friday afternoon.

The recent primary election started some of the older residents of Grayling reminiscing on political situations back in the old days when the first court house and jail was the center of law and order for Crawford county. William McCullough had been very successful as sheriff but at the County convention Walter Metcalf was nominated democratic candidate for that office and Ben Sherman the candidate for the republican party. Friends of Mr. McCullough persuaded him to run on slips at the fall election and after some reluctance Mr. McCullough did and so won with a majority that nearly equaled the combined vote of the other two candidates. If the memories of the gentlemen are correct, Mrs. Eva Reagan is the first candidate since Mr. McCullough to have run successfully on slips in any Crawford county election since that date.

A husband came home one evening to find a note left for him by his wife. Carelessly he opened it, but as he read his face blanched. "My God," he exclaimed. "How could this have happened so suddenly?" And snatching his hat and coat, he rushed to a hospital which was near his home. "I want to see my wife, Mrs. Brown, at once," he said to the head nurse, "before she goes under the ether. Please take my message to her at once. 'Mrs. Brown?' echoed the nurse. "There is no Mrs. Brown here." "Then to which hospital has she gone?" asked the distracted husband. "I found this note from her when I came home," and he handed the note to the nurse, who read: Dear Husband—I have gone to have my kimono cut out.
